

„ENERGY HARVESTING” SWITCHES – HOW IT WORKS?

A brief guide to JP Production switch applications

HAVE YOU EVER FORGOTTEN TO PUT
A SWITCH IN A COMFORTABLE
PLACE? OR MAYBE YOU ARE
RENOVATING AN OLD ELECTRICAL
INSTALLATION?

Any idea?

A photograph of a cluttered, unfinished room. The ceiling is made of exposed wooden joists with several white electrical wires hanging down. The walls are light-colored and appear to be in the process of being finished. The floor is covered with various items, including paint cans, a blue bag, and other construction-related debris. There are windows in the background, and the overall scene suggests a state of disarray and incomplete work.

DON'T YOU WANT COST,
CLUTTER, DUST AND
UNRELIABLE PROFESSIONALS?

What do you do? Who do you turn to?

THE ANSWER IS OUR SWITCH IN SEVERAL VERSIONS

Yes. This is the solution for you. You can stick to the wall, put where you want or carry with you.

THE SIMPLEST SWITCH CONTROLS
ONE RECEIVER (LAMP, ELECTRONIC
EQUIPMENT, WASHING MACHINE,
ETC.)

Battery-Free

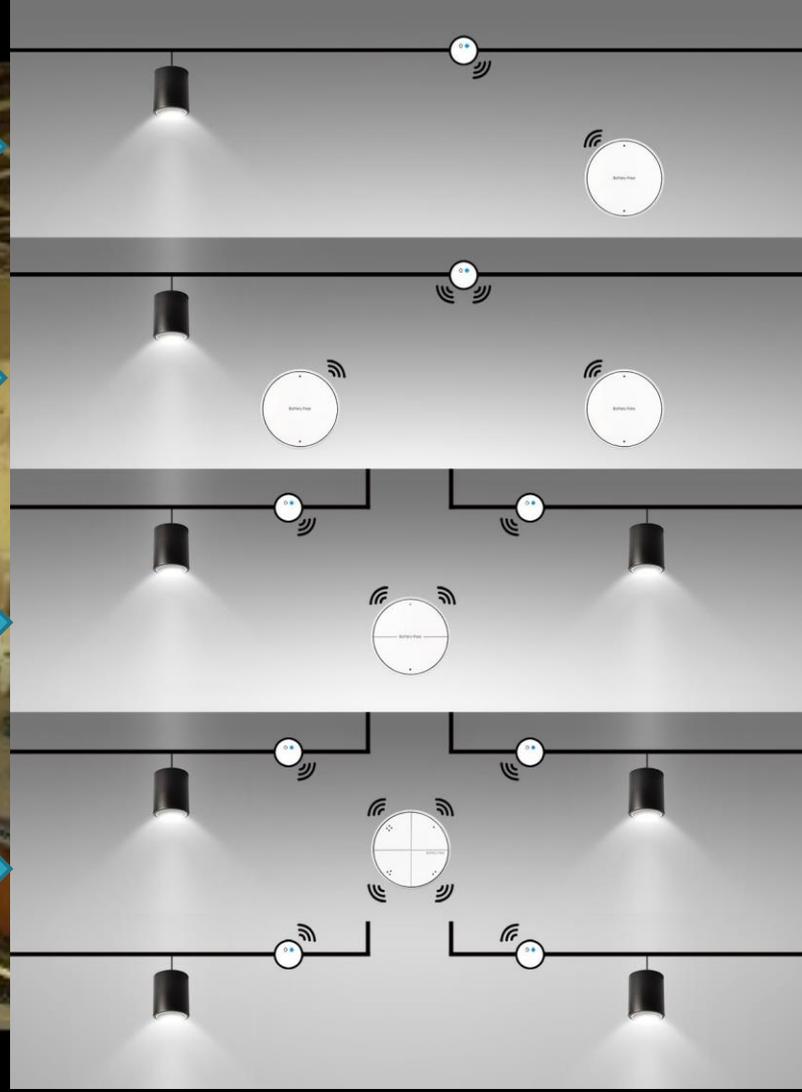

Simple solution for everyone.

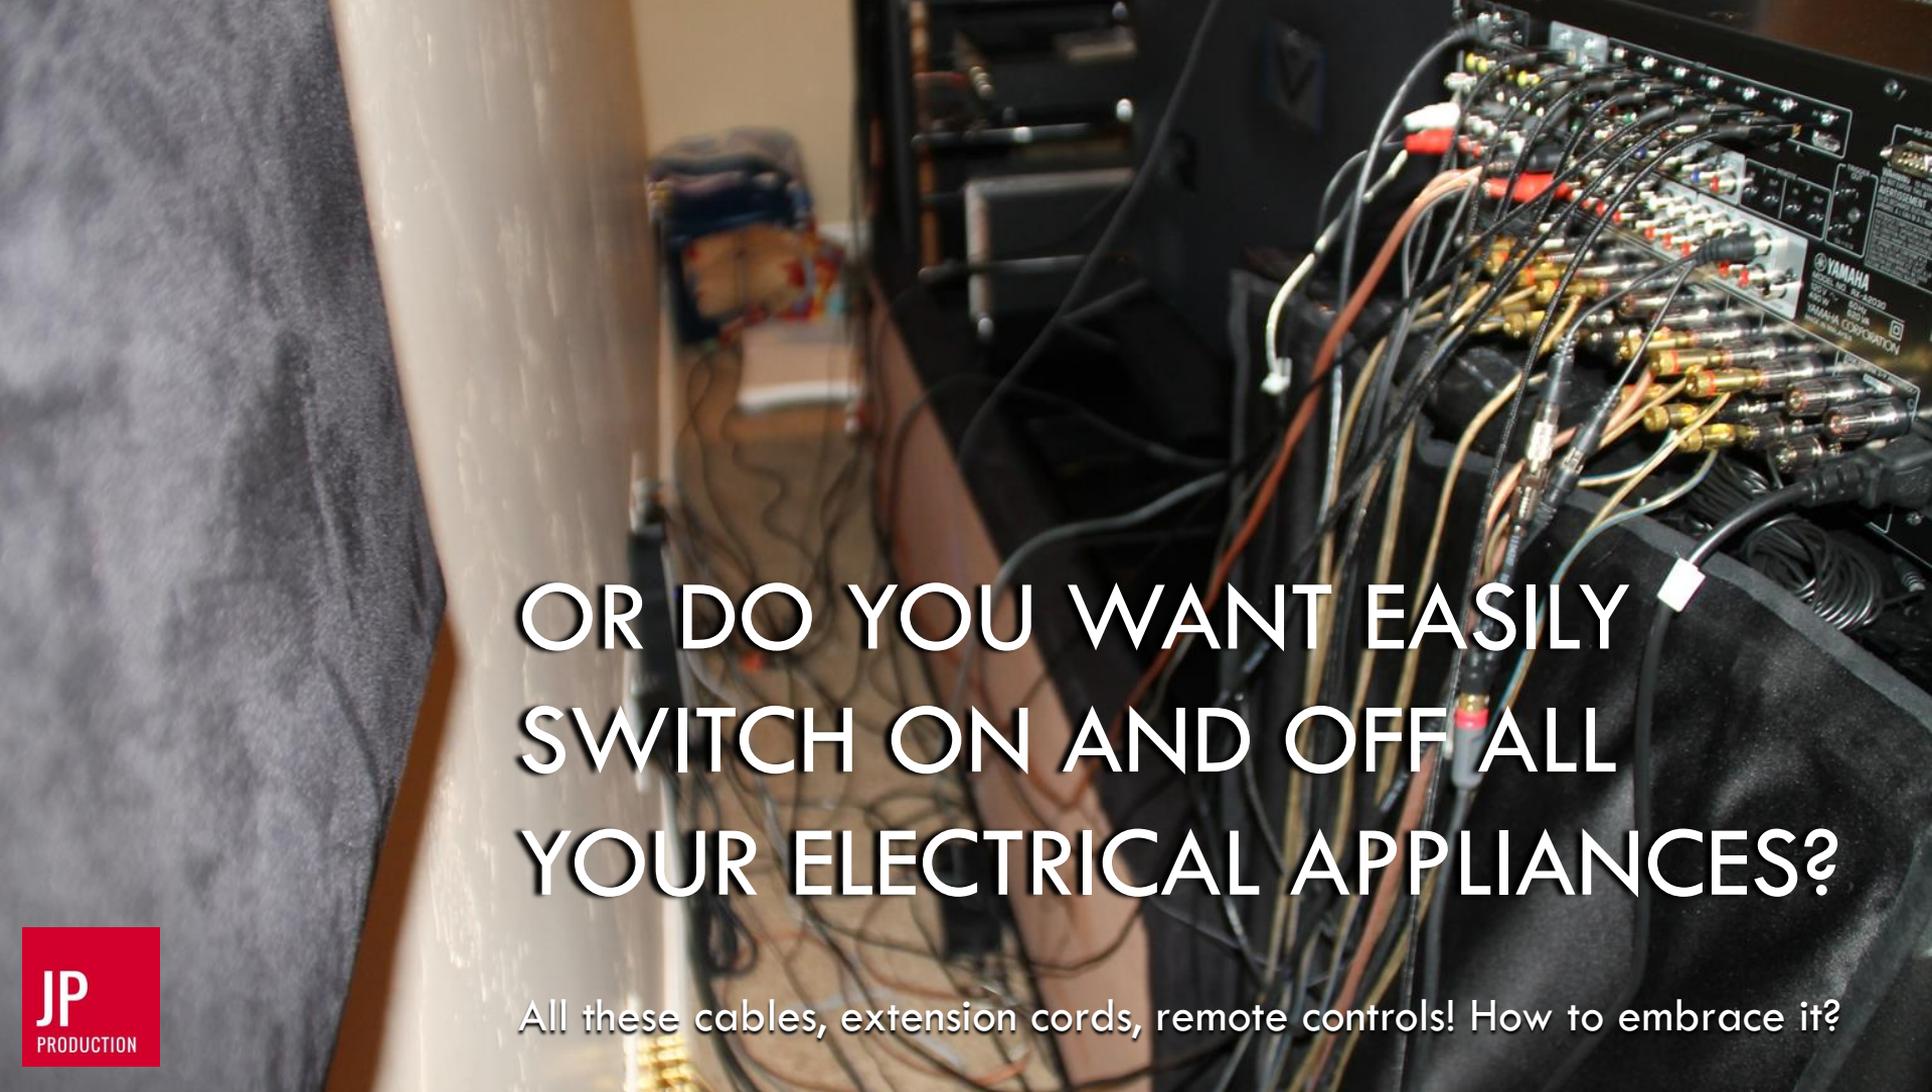

One switch controls one receiver (eg. ceiling lamp)

Two switches control one receiver (eg. stairs)

One switch controls two receivers (eg. two sconces on the wall)

One switch controls four receivers (eg. two wall sconces on two walls)

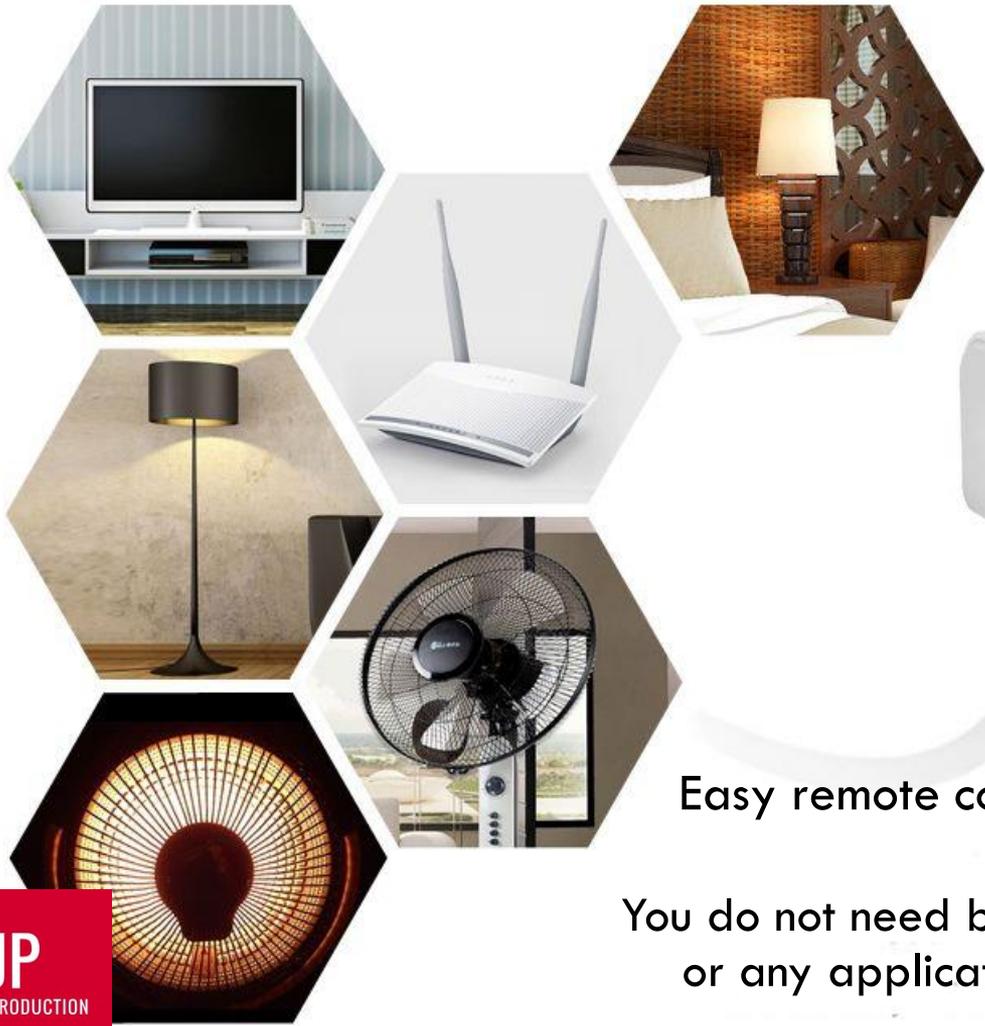

OR DO YOU WANT EASILY
SWITCH ON AND OFF ALL
YOUR ELECTRICAL APPLIANCES?

All these cables, extension cords, remote controls! How to embrace it?

WELL YES, OUR MAGICAL
NEST THIS IS IT!

Connect all the cables to one extension and
then connect it to our outlet. And it works.

EVERY DEVICE!

Easy remote control within a 20m radius

You do not need batteries, Wi-Fi, Bluetooth, or any applications. Simple and easy.

A child is sleeping peacefully in a bed, covered with a blue blanket. In the foreground, a silver alarm clock is visible, showing the time as approximately 10:10. The scene is dimly lit, creating a calm and serene atmosphere.

AND WHEN YOUR CHILD IS AFRAID
TO SLEEP IN A DARK ROOM, AND
YOU DO NOT WANT TO SPEND HALF
A NIGHT STANDING AND WAITING
FOR IT FALLS ASLEEP?

THE ANSWER IS OUR DIMMING
CONTROL SYSTEM (UP TO
THREE LIGHT SOURCES IN THE
SET)

JP
PRODUCTION

Sounds familiar? Fake? No! Super system. Tranquility and romantic mood for parents.

ROMANTIC

RELAXED

BRIGHT

First, clearly, later calmly, and then romantically ☹️

DOORBELL DOES NOT WORK?
MOISTURE? DAMAGED
BATTERY? OR MAYBE YOU JUST
DO NOT WANT TO TAKE
GUESTS?

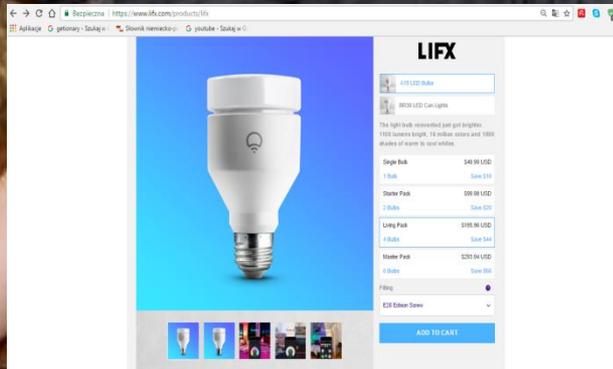

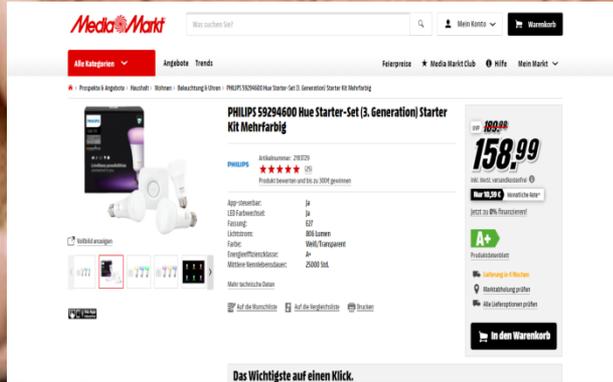

And how is it when the doorbell still ringing and you are busy
with something else?

THE ANSWER IS OUR EXCEPTIONAL DOORBELL

It is simple. Just stick the button on the wall, the door or on the door frame, and plug the bell into an electrical outlet where you want it. That's it. It works.

SIMILAR SYSTEMS WEAK POINTS AND COSTS

- Very high retail prices of switches (Media Markt starter kit regular price 189,99 €)*
- Need to have a router in the room,
- Control over Wi-Fi complicated configuration,
- Need to install a control application on a smartphone
- Possibility of use Phillips accessories only,
- Very high retail prices of switches (starter kit price in online store \$ 195.96)**
- Poor system consists only of light bulbs,
- Control over Bluetooth,
- Need to install a control application on a smartphone
- The ability to change only the colour of light,

* Retail prices for Germany checked in May 2017.

** The retail prices of the switches may vary, depending on the type and the sales channel.

COST AND STRESS LEVEL STATEMENT
